EXPERIENCE

Full-Stack Developer Intern

HoushTech, Remote

2024-12-02 – 2025-05-30

Development and maintenance of a club shop platform for associations, as well as a matching tool that connects users with associations, focusing on scalable and user-friendly solutions using .NET Core, Razor, and nopCommerce. Responsible for backend development, implementing new features, and improving existing functionality.

Full-Stack Developer Intern

Revolution Race, Borås

2023-11-13 - 2024-05-03

Created a Nuxt.js web app for administrators to manage customer reviews. Contributed to the development of the company's new footer and made changes to the XML sitemap and CMS system. Retrieved data via GraphQL. Worked with Azure DevOps and Git for version control. Actively participated in agile methodologies, including daily stand-ups, sprint planning, PBI breakdowns, estimations, and sprint deliveries.

Customer Service Agent

H&M, Borås

2021-06-21 - 2024-01-29

Handled customer inquiries via phone and email, requiring high multitasking ability. Solved problems and queries quickly and efficiently. Contributed to maintaining high customer satisfaction.

Store Salesperson

Jysk, Skene

Summer Job 2023

Elgiganten, Skene

2021-01-21 – 2021-03-29

Lidl, Skene

2017-09-18 – 2021-06-20

EDUCATION

Webdeveloper .NET

EC Utbildning

2022-08-22 - 2024-05-31

Created several web applications for e-commerce, including ones built with React and MongoDB, React and C#, and ASP.NET WPF. One application was built using ASP.NET and Umbraco CMS. Also created two MVC apps for issue management, one of which had a more complex database. One of the projects was completed in a group with agile methodologies.
